

## **expo 2000 / baktuppen**

*Hello Alf*

During 1999 Baktruppen will present two shows in one: SPECT and QUACK - based on contemporary life in the Norwegian suburbs and countryside. I send you some very brief information about these performances that you will also see in Lübeck.

On the video you will also see some glimpses of GOOD GOOD VERY GOOD (1996), which since then has become VERY GOOD. It deals with alcohol, the Sami people and the Chinese. I also enclose the CD: COME ON EVERYBODY, which is performed during the show. I send you this because it's a cheerful play with a high factor of entertainment. More information is available.

Trine
